Thank you for updating me today on your work. I'm really enjoying thinking about the future of the garden and the opportunities that are possible instead of just thinking of only the challenges.

Below is the feedback that I mentioned from Shari from Sanitation from a comment her mom made after visiting the garden.

See you next week!

Good Morning Commissioner Rivas and Commissioner Jacinto,

I spoke with my mom and she said she had an issue with the docent's description of the tea house. The docent described it as an authentic tea house which my mom said was inaccurate. The tea house is more a modern version of one. Please keep in mind though that my mom may be more knowledgeable than many visitors to the Garden having lived in Japan and studied Japanese art history.

If there is a script that the docents use for the tours, my mom said that she can review it to confirm accuracy.
